May 18 ÷ 20 2017

We invite you to listen our impressive speaker systems at the Marriott Hotel in Suite 418. We present the Speaker Modell "**Campanile 2**" with hyperspherical Midrangehorn and the Acapella "**LaMusika**" **Amplifier**. If you have any doubt about the music reproduction with Horn speakers, come and listen the Acapella speakers, cables & accessories. We are very sure that we can change your opinion about Horn speakers, specially about our handcraftet speaker systems, which are developed and produced in Germany.
